

Extra Mag All Natural

Formulated for beef cattle

Extra Mag is a 12% protein supplement with 5% magnesium. To counteract the effect of low magnesium forages, place one tub of Extra Mag to every 15 to 25 head of cattle.

It is hard to get cattle to consume enough magnesium out of conventional supplements due to the extremely bitter taste. With **Forage Star™** Extra Mag, consumption is not a problem because the bitter taste is hidden by the extremely palatable taste of molasses. **Forage Star™** Extra Mag also furnishes the energy dense nutrients needed for cattle to achieve their genetic potential for efficient production of beef.

**CAUTION: DO NOT FEED TO SHEEP.
FEED ONLY AS DIRECTED.**
